

Rocky Mountain Expo

Prospect Fair and Technofest

Presented by
RMAG-DAPL-DGS-SPE-IPAMS

Where does the Rocky Mountain Oil Patch come together?

The Rocky Mountain Expo!

Where else North of the Red River can you combine the best prospects the Rocky Mountain Region has to offer with a glimpse of the latest products and services in the industry? Our booth format alternates rows prospect exhibitors with technical Exhibitors - A layout that has received rave reviews in the past.

The Prospect Fair

The Prospect Fair will display the best available opportunities for increasing your company's reserves. Properties and prospects from all interior North American basins are being solicited.

The Technofest

The Technofest will feature software developers, data vendors and service companies displaying the latest in geophysical, geological, drilling, completion, exploration and production technology research.

For more information, see our web site at www.rockymountainexpo.org
